06/26/01 A00-06-032 Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060.

Summary: On June 21, 2001, Steve Rahon, Regulatory Case Manager of Sempra Energy (Sempra) representing Southern California Gas Company (SoCalGas), met with Julie Halligan, advisor to Cmmr. Bilas, in San Francisco. Also present were Allison Smith, Senior Market Consultant to SoCalGas, and Kimberly Freeman, State Regulatory Relations Administrator, Sempra. Rahon stated that the proposed decision (PD) correctly recognizes that the peaking service tariff should avoid cost shifts to core customers, levelize the “playing field” between the straight-fixed variable (SFV)/demand charge based rates of Federal Energy Regulatory Commission-regulated interstate pipelines and SoCalGas’ design, and send the proper price signals. Referring to the SoCalGas proposal and the Office of Ratepayer Advocates (ORA) proposal, Rahon explained that either proposal must be adopted in its entirety. Rahon urged the Commission to adopt the SoCalGas proposal, as it is consistent with the SFV rate design used by FERC-regulated interstate pipelines. Rahon stated that in the event the Commission adopts the ORA proposal, the Commission should establish a floor price of 125% of the class average volumetric rate. Rahon also commented that the PD is correct in applying the peaking service tariff to all customers. Rahon urged the Commission to reject the Watson Cogeneration rate proposal. Smith added that the claim that the peaking service tariff was negatively impacting electric generation siting in SoCalGas’ service territory is false. Smith stated that the multi-generator provision was necessary.

06/27/01 A00-06-032 Southern California Gas Company, for authority to implement a rate for peaking service as ordered by D.00-04-060.

Summary: On June 22, 2001, Steve Rahon, Regulatory Case Manager of Sempra Energy (Sempra) representing Southern California Gas Company (SoCalGas), met with Belinda Gatti, advisor to Cmmr. Brown, in San Francisco. Also present were Leslie Katz, Regional Vice-President - Regulatory Affairs of Sempra, and Allison Smith, Senior Market Consultant to SoCalGas. Rahon stated that the proposed decision (PD) correctly recognizes that the peaking service tariff should avoid cost shifts to core customers, levelize the “playing field” between the straight-fixed variable (SFV)/demand charge based rates of Federal Energy Regulatory Commission-regulated

interstate pipelines and SoCalGas' design, and send the proper price signals. Rahon commented that the PD appears to mix and match the SoCalGas proposal and the Office of Ratepayer Advocates (ORA). Rahon explained that both proposals are distinct. Rahon urged the Commission to adopt the SoCalGas proposal, as it is consistent with the SFV rate design used by FERC-regulated interstate pipelines. Rahon stated that the ORA proposal is flawed and that the event the Commission adopts the ORA proposal, the Commission should establish a floor price of 125% of the class average volumetric rate. Rahon also commented that the PD is correct in applying the peaking service tariff to all customers. Rahon urged the Commission to reject the Watson Cogeneration rate proposal. Smith added that the claim that the peaking service tariff was negatively impacting electric generation siting in SoCalGas' service territory is false. Smith also added that it is unnecessary for interstate pipelines to be built into SoCalGas service territory.

I95-04-044	Order Instituting Investigation on the Commission's Own Motion Into Competition for Local Exchange Service.
A01-02-024	AT&T Communications of California, Inc. and WorldCom, Inc., joint application for the Commission to reexamine the recurring costs and prices of unbundled switching in its first annual review of unbundled network element costs pursuant to Ordering Paragraph 11 of D99-11-050.
A01-02-035	AT&T Communications of California, Inc. and WorldCom, Inc., for the Commission to Reexamine the Recurring Costs and Prices of Unbundled Loops in its First Annual Review of Unbundled Network Element Costs Pursuant to Ordering Paragraph 11 of D.99-11-050.

Summary: On June 25, 2001, James L. Lewis, Regional Executive, WorldCom, Inc. (WorldCom), met with Robert Wullenjohn, advisor to Cmmr. Brown, in San Francisco. Cmmr. Brown attended the last part of the meeting. Also present were Thomas Bateman, Executive Director of the California Communities Dispute Service, and William Harrelson, Senior Counsel, WorldCom. Lewis described the successful marketing of interLATA long distance services by Regional Bell Operating Companies in states where they have received 271 approval. Lewis expressed that Pacific Bell should not be given 271 approval, until there is broad-based competitive local entry for residential and small business consumers in California. Lewis related that the most important hurdle to local entry and 271 approval is the excessive, not cost-based prices for the unbundled network elements. Harrelson stated that there were two significant problems in the recent ruling setting a scope and schedule in A01-02-024 and A01-02-035. Harrelson explained that the problems are preclusion of other parties filing cost studies and the decision not to reexamine the excessive 19% overhead factor.

Summary: On June 26, 2001, William Harrelson, Senior Counsel, WorldCom, Inc. (WorldCom), met with Tom Long, advisor to Cmmr. Lynch, in San Francisco. Also present was Trina Horner, advisor to Cmmr. Lynch. Harrelson described the successful marketing of interLATA long distance services by Regional Bell Operating Companies in states where they have received 271 approval. Harrelson expressed that Pacific Bell should not be given 271 approval, until there is broad-based competitive local entry for residential and small business consumers in California. Harrelson related that the most important hurdle to local entry and 271 approval is the excessive, not cost-based prices for the unbundled network elements. Harrelson suggested that the fast-track of the 271 proceeding was inconsistent with the schedule established in the recent ruling setting a scope and schedule in A01-02-024 and A01-02-035, since Pacific Bell's 271 application

could not be granted until loop and switch UNE prices were reduced. Harrelson described reasons why switch and loop prices were excessive in California. Harrelson stated that there were two significant problems in the recent ruling setting a scope and schedule in A01-02-024 and A01-02-035. Harrelson explained that the problems are preclusion of other parties filing cost studies and the decision not to reexamine the excessive 19% overhead factor.

Summary: On June 27, 2001, James L. Lewis, Regional Executive, WorldCom, Inc. (WorldCom), met with Cmmr. Wood and with Jonathan Lakritz, advisor to Cmmr. Wood, in two separate meetings in San Francisco. Also present was William Harrelson, Senior Counsel to WorldCom. In the meeting with Cmmr. Wood also participated Jonathan Lakritz. At the meeting with Cmmr. Wood, Harrelson emphasized WorldCom's view that pricing of the unbundled network elements (UNEs) was the most important issue in the 271 proceeding. At the meeting with Lakritz, Lewis suggested that the fast-track of the 271 proceeding was inconsistent with the schedule established in the recent ruling setting a scope and schedule in A01-02-024 and A01-02-035, since Pacific Bell's 271 application could not be granted until loop and switch UNE prices were reduced. Harrelson stated that there were two significant problems, aside from schedule, in the recent ruling setting a scope and schedule in A01-02-024 and A01-02-035. Harrelson explained that the problems are preclusion of other parties filing cost studies and the decision not to reexamine the excessive 19% overhead factor.

Summary: On June 26, 2001, Peter Casciato, attorney for The Utility Reform Network (TURN), sent a letter (attached to the notice) to ALJ Jones. The letter advised that a schedule had been set to conduct a cost review of Pacific Bell's switching and loops in the unbundled network element cost review proceeding (A01-02-024, A01-02-035 and A01-02-034). The letter stated that TURN continues to believe that the Commission should dismiss the instant application without prejudice to the outcome of the noted proceedings, or defer its resolution pending the outcome of the noted proceedings.

Regulatory Framework.

Summary: On June 26, 2001, Greg R. Gierczak, Executive Director – Regulatory of Roseville Telephone Company (Roseville), met with Jonathan Lakritz, advisor to Cmmr. Wood, Lester Wong, advisor to Cmmr. Bilas, and Cmmr. Brown in three separate meetings in San Francisco. Also present were Sean Beatty and Mark Schreiber, counsel to Roseville. In the meeting with Lester Wong, also participated Fassile Fenikil, advisor to Cmmr. Duque, and in the meeting with Cmmr. Brown – Robert Wullenjohn, advisor to Cmmr. Brown. Gierczak said that the alternate decision of Cmmr. Lynch should be rejected. Gierczak stated that the Commission should adopt the proposed decision (PD) which appropriately determines that the new regulatory framework sharing mechanism should be suspended based on the conditions and environment in which Roseville operates. Gierczak explained that the proposed finding in the alternate and PD that Roseville's earnings are above the sharing threshold is due primarily to the impact of an accounting change pronouncement, SOP 98-1 and not a result of misallocations and cross-subsidization. Gierczak stated that the three-factor formula proposed by Roseville is the appropriate method for allocating common costs between Roseville and its affiliate.
